ABOUT DURAT SOLIDS

Durat is a sleek, modern solid surface material used to create seamless surfaces such as countertops, desks, tables, integrated sinks, and much more. The Solid Collection has no speckles for a uniform look. Durat's adhesive bonds sheets chemically, leaving no seams. Seamless, non-porous designs are perfect for spaces that need to stay clean. Durat is durable, easy to clean, and easy to maintain. At the end of its life, Durat sheets are 100% recyclable through the manufacturer's take-back program. Sheets are 114.17" x 31.5" x .47" but can be customized to maximize yield. Like Durat's standard collection, there is a color matching program available if none of the standard colors are quite right for your project.

* Printed colors are only representations. Please call for a physical sample.
