COVERPLY

Available in all Colors
PaperStone's CoverPly product is a thin layer of any classic PaperStone color on both sides of a high-quality plywood core. The result is a lighter-weight panel with plywood visible around the edges.

PAPERSTONE RECYCLED PAPER COMPOSITE PANELS

PaperStone is a beautiful, durable, and contemporary modern surface made in Hoquiam, Washington. It is highly resistant to scratching, staining, and chemicals while sticking close to a green philosophy by using recycled paper layered with a phenolic resin. PaperStone panels are perfect for commercial and residential countertops as well as interior and exterior cladding. The panels are unique in that they are durable like a stone but can be fabricated with standard woodworking tools, making it a great material to get creative with and make things from furniture to jewelry and knife handles.

GENERAL INFORMATION

- Composite material made of up to 100% recycled paper and proprietary resins
- Weather resistant, water resistant, and UV stable
- Easy to cut and drill using common carbide-tipped woodworking tools
- Recommended install system available through NorthClad Inc.
- 10-year warranty
- Standard Panel Size: 30" or 60" wide, and 96", 120", or 144" long
- CoverPly Sheet Size: 48" x 96"
- Cladding Panel Size: 48" or 60" wide, and 96", 120", or 144" long
- Thickness: 1/8" inch up to 1-1/4"
- Applications: countertops, walls, table tops, window sills, interior, and exterior cladding and rainscreens

SUSTAINABILITY

- Made in the USA
- Over 50% recycled content by weight
- Uses 100% post-consumer recycled paper
- FSC certification
- NSF certification
