

### GLASS2 FUSED RECYCLED GLASS

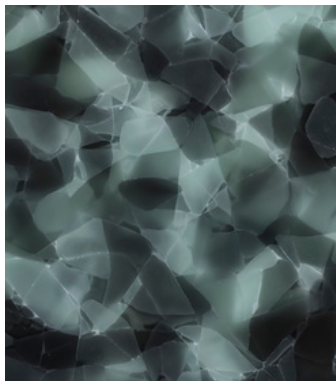

glass2 was engineered to be nearly 100% recycled glass while remaining durable and easy to fabricate. The resulting surface is made of 99% recycled glass fused together, requiring no resins or binders. It is suitable for interior and exterior applications and both residential and commercial use. It can be fabricated by both stone and glass fabricators. Since it is all glass, it is a great material for creating backlighting effects. glass2 allows you to create a stunning visual experience and tell a sustainable story with your countertops, columns, or cladding.
